Roto Con Orders v3
The online hardware configurator

Roto Con Orders
In four steps to a finished parts list

Roto Con Orders is the perfect solution for window and door manufacturers, and for dealers. That's because with the high-performance online hardware configurator, an individual configuration of window and door hardware can be generated very easily and in an extremely short time – for all common shapes and opening types. Just a few mouse clicks and a couple of numeric entries, and the window-specific parts list including a technical illustration of the hardware itemisation is finished.
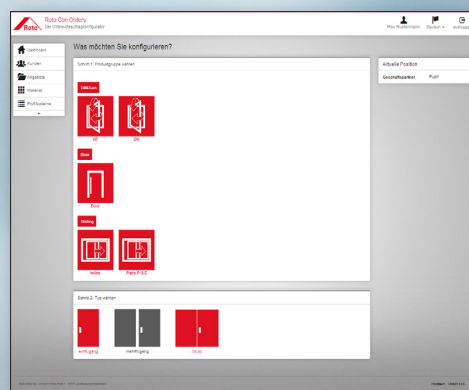

And the list can be changed, adjusted or personalised as desired. It can be exported in various data formats, enabling it to be used for individual offers or orders. You benefit from this efficient Roto online tool, save time during configuration, management and ordering – that's Roto Con Orders.

**Hardware configuration has never been this easy**

With an intuitive menu guidance, you generate an optimum parts list in just four steps:

1. Selection of a product group
2. Selection of a construction template
3. Entry of dimensions
4. Individual detailed settings and adjustments

Result: Output of a detailed data sheet with a technical illustration and a complete parts list: with editable order numbers, descriptions, individual and total prices.

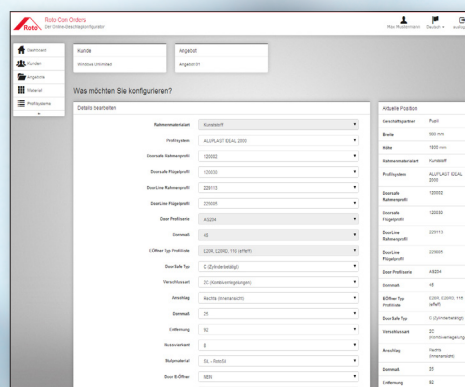

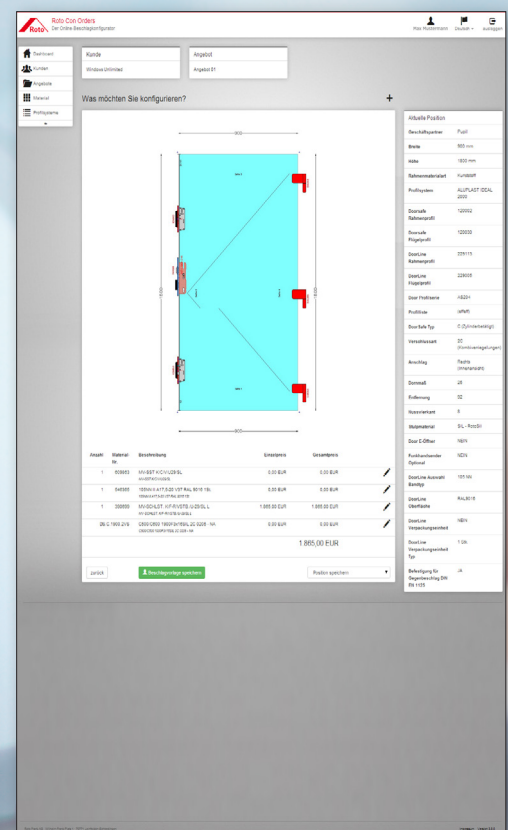

1 Selection of a product group

2 Selection of a construction template

3 Entry of dimensions

4 Individual detailed settings and adjustments

5 Result: Finished parts list
